**DETAILED ACTION**

**EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Steven Laut on November 11, 2005.

The application has been amended as follows: In claim 5, line 4 replace the phrase "a plurality of input signals" with the phrase --the test mode period selecting reference signals--.

In claim 5, line 5 replace the phrase "plurality of input signals" with the phrase --test mode period selecting reference signals--.

***Allowable Subject Matter***

2. Claims 1-8 are allowed.

3. The following is an examiner's statement of reasons for allowance: Claims 1-8 are allowed because the closest prior art of record fails to disclose a circuit as shown in Figure 4 wherein the circuit includes test mode clock providing means (41) for selectively outputting the plurality of the divided clocks in a test mode in response to a test mode signal (tm\_en) and a test mode period selecting reference signal (A0, A1) in combination with the rest of the limitations of the base claims and any intervening claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
